PHYSICS DIVISION
ROCHESTER, N.Y.

ACCESSION
No. 73-63

CONTENTS OF VOL. XXI.

	PAGE
The Unaided Eye. Part II. By James Weir French, B.Sc.	1
On Projection Screens. By Charles W. Gamble, M.Sc. (Tech.)	34
Description of a German Portable Range-Finder. By John S. Anderson, M.A., B.Sc., Ph.D.	41
The Incident Angles Corresponding to Given Deviation Produced by a Prism. By T. Smith, B.A.	49
Chromatic Variation of Spherical Aberration in Cemented Doublets. By Miss L. M. Gillman, B.Sc.	53
On the Correction of First Order Astigmatism of a Single Lens used with a Stop. By Instructor-Commander T. Y. Baker, R.N., B.A.	65
The Surface Layer of an Optical Polishing Tool. By James Weir French, B.Sc.	81
Diffraction Patterns in the Presence of Spherical Aberration. By Mrs C. H. Griffiths, M.Sc.	87
A Ray-Plotter. By F. G. Smith, B.A.	100
Exhibit of a Projection Spectropolariscope. By Professor F. J. Cheshire, C.B.E.	102
Exhibit of a Spectrometer, made by Messrs E. R. Watts and Son. By L. C. Martin, D.I.C., A.R.C.Sc., B.Sc.	104
The Optical Theory of Portable Daylight Signalling Lamps. By A. C. W. Aldis, M.A.	113
The Unaided Eye. Part III. By James Weir French, B.Sc., F.O.S.	127
The Rock Crystal of Brazil. By Robert R. Walls, M.A., B.Sc.	157
A Short High Power Telescope. By Lt.-Col. J. William Gifford, F.R.A.S.	171
The No. 7 Dial Sight, Mk. II. By B. K. Johnson	176
The Contact Setting of Small Discs. By A. Barbara Dale	187
Immersion Refractometry. By John S. Anderson, M.A., B.Sc., Ph.D.	195
The Inverting Prism. By Instructor-Commander T. Y. Baker, R.N., B.A.	217
Exhibits: Fluorescent Phenomena. By W. Shackleton, A.R.C.Sc. and F. H. Glew	219
Process of moulding Small Lenses. By A. Wood	219
Samples of Optical Glass. By H. C. Rands	220
Reviews	106, 165, 221
Abstracts	76, 107, 167, 222
Obituary Notices	78, 110
Notices	51, 109, 224

INDEX TO VOL. XXI.

References to Abstracts are given in *italics*.

PAGE

Aberration, Diffraction Patterns in the Presence of Spherical. By Mrs C. H. Griffiths 87
Aberration in Cemented Doublets, Chromatic Variation of Spherical. By Miss L. M. Gillman 53
Abstracts 76, 107, 167, 169, 222, 223
Aldis, A. C. W., The Optical Theory of Portable Daylight Signalling Lamps . 113
Anderson, J. S., Description of a German Portable Range-Finder 41
Immersion Refractometry 195
Astigmatism of a Single Lens used with a Stop, On the Correction of First Order. By T. Y. Baker 65

Baker, T. Y., On the Correction of First Order Astigmatism of a Single Lens used with a Stop 65
The Inverting Prism 217
Berndt, G., see Weidert, F.

Cemented Doublets, Chromatic Variation of Spherical Aberration in. By Miss L. M. Gillman 53
Chalmers, S. D., Obituary Notice 110
Cheshire, F. J., Exhibit of a Projection Spectropolariscope 102
Cobb, P. W., see Hyde, E. P.
Compass, A New Box. By C. Pulfrich 76
Conjugate Points in an Optical System, A Graphical Method of finding Axial. By A. Kühl 222
Contact Setting of Small Discs, The. By Miss A. B. Dale 187
Crystal of Brazil, The Rock. By R. R. Walls 157

Dale, Miss A. B., The Contact Setting of Small Discs 187
Department of Scientific and Industrial Research (Notices) 51, 224
Deviation produced by a Prism, The Incident Angles corresponding to given. By T. Smith 49
Dial Sight, Mk. II, The No. 7. By B. K. Johnson 176
Diffraction Patterns in the Presence of Spherical Aberration. By Mrs C. H. Griffiths 87

PAGE

Errors of Measurement in Range-Finders, The. By H. Schulz 167
Exhibition held by the Physical Society of London and the Optical Society (Notice) 109
Exhibits, Fluorescent Phenomena 219
Process of moulding Small Lenses 219
Projection Spectropolariscope 102
Samples of Optical Glass 220
Spectrometer (Messrs E. R. Watts and Son) 104
Eye, The Unaided, Part II. By J. W. French 1
Part III. By J. W. French 127

Field-Glasses, The Relative Merits of Monocular and Binocular. By E. P. Hyde, P. W. Cobb, H. M. Johnson, and W. Weniger 169
Fluorescent Phenomena, Exhibits of. By W. Shackleton and F. H. Glew . . 219
French, J. W., Applied Optics (Steinheil and Voit), Translated and Edited by (Review) 106
The Surface Layer of an Optical Polishing Tool 81
The Unaided Eye, Part II 1
Part III 127

Gamble, C. W., On Projection Screens 34
German Portable Range-Finder, Description of a. By J. S. Anderson . . 41
Gibson, K. S., Photo-electric Spectrophotometry by the Null Method . . . 107
Gifford, J. W., A Short High Power Telescope 171
Gillman, Miss L. M., Chromatic Variation of Spherical Aberration in Cemented Doublets 53
Glew, F. H., Exhibit of Fluorescent Phenomena 219
Griffiths, Mrs C. H., Diffraction Patterns in the Presence of Spherical Aberration 87

Hensoldt-Hildebrand Reading Microscope, The. By K. Lüdemann 222
Hertzsprung, E., A Simple Method for the Approximate Determination of the Secondary Spectrum of an Objective 107
Hofe, C. v., Apparatus for testing the Accuracy of Setting 169
Hyde, E. P., Cobb, P. W., Johnson, H. M., and Weniger, W., The Relative Merits of Monocular and Binocular Field-Glasses 169

Immersion Refractometry. By J. S. Anderson 195

Johnson, B. K., The No. 7 Dial Sight, Mk. II 176
Johnson, H. M., see Hyde, E. P.

Kühl, A., A Graphical Method of finding Axial Conjugate Points in an Optical System 222

PAGE

Laurance, L., Visual Optics and Sight Testing (Review) 165
Lenses, Process of moulding Small. By A. Wood 219
Lens used with a Stop, On the Correction of First Order Astigmatism of a Single. By T. Y. Baker 65
Lüdemann, K., The Hensoldt-Hildebrand Reading Microscope 222

Martin, L. C., Exhibit of a Spectrometer, made by Messrs E. R. Watts and Son 104
Melting of Glass, The. By F. Weidert and G. Berndt 223
Microscope: its Design, Construction, and Application, A Symposium on the. (Notice) 109
Microscope, The Hensoldt-Hildebrand Reading. By K. Lüdemann 222

National Physical Laboratory; Retirement of Sir R. T. Glazebrook . . . 51

Obituary Notices, Lord Rayleigh 78
S. D. Chalmers 110
Objective, A Simple Method for the Approximate Determination of the Secondary Spectrum of an. By E. Hertzsprung 107
Optical Glass, Samples of. Exhibit by H. C. Rands 220
Optical System, A Graphical Method of finding Axial Conjugate Points in an. By A. Kühl 222
Optical System, On tracing Rays through an. By T. Smith 222
Optical Theory of Portable Daylight Signalling Lamps, The. By A. C. W. Aldis 113
Optics, Applied (Steinheil and Voit). Translated and Edited by J. W. French (Review) 106

Photo-electric Spectrophotometry by the Null Method. By K. S. Gibson . . 107
Polishing Tool, The Surface Layer of an Optical. By J. W. French . . . 81
Prism, The Incident Angles corresponding to given Deviation produced by a. By T. Smith 49
Prism, The Inverting. By T. Y. Baker 217
Projection, Optical, Part I. The Projection of Lantern Slides. By L. Wright, 5th ed. revised by R. S. Wright (Review) 221
Projection Screens, On. By C. W. Gamble 34
Pulfrich, C., A New Box Compass 76

Rands, H. C., Exhibit of Samples of Optical Glass 220
Range-Finder, Description of a German Portable. By J. S. Anderson . . 41
Range-Finders, The Errors of Measurement in. By H. Schulz 167
Rayleigh, Lord, Obituary Notice 78
Ray-Plotter, A. By F. G. Smith 100
Refractometry, Immersion. By J. S. Anderson 195

PAGE

Reviews, Applied Optics. By Steinheil and Voit. Translated and Edited by J. W. French 106
Optical Projection, Part I. The Projection of Lantern Slides. By L. Wright, 5th ed. revised by R. S. Wright 221
Visual Optics and Sight Testing. By L. Laurance 165
Richter, R., A Variable Power Telescopic Rifle Sight 223

Schulz, H., The Errors of Measurement in Range-Finders 167
Setting, Apparatus for testing the Accuracy of. By C. v. Hofe 169
Setting of Small Discs, The Contact. By Miss A. B. Dale 187
Shackleton, W., Exhibit of Fluorescent Phenomena 219
Sight Testing, Visual Optics and. By L. Laurance (Review) 165
Signalling Lamps, The Optical Theory of Portable Daylight. By A. C. W. Aldis 113
Smith, F. G., A Ray-Plotter 100
Smith, T., *On tracing Rays through an Optical System* 222
The Incident Angles corresponding to give Deviation by a Prism . 49
Spectrometer made by Messrs E. R. Watts and Son, Exhibit of a. By L. C. Martin 104
Spectrophotometry by the Null Method, Photo-electric. By K. S. Gibson . . 107
Spectropolariscope, Exhibit by a Projection. By F. J. Cheshire 102
Spectrum of an Objective, A Simple Method for the Approximate Determination of the Secondary. By E. Hertzsprung 107
Steinheil, A., and Voit, E., Applied Optics. Translated and Edited by J. W. French (Review) 106
Surface Layer of an Optical Polishing Tool, The. By J. W. French . . . 81

Telescope, A Short High Power. By J. W. Gifford 171
Telescopic Rifle Sight, A Variable Power. By R. Richter 223

Visual Optics and Sight Testing. By L. Laurance (Review) 165
Voit, E., see Steinheil, A.

Walls, R. R., The Rock Crystal of Brazil 157
Watts, Messrs E. R. and Son, Exhibit of a Spectrometer made by. By L. C. Martin 104
Weidert, F., and Berndt, G., The Melting of Glass 223
Weniger, W., see Hyde, E. P.
Wood, A., Process of moulding Small Lenses 219
Wright, L. and R. S., Optical Projection, Part I. The Projection of Lantern Slides (Review) 221
